Allowable Subject Matter

1. Claims 40-57 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor renders obvious a security element for protecting objects of value (claim 40) or an object of value comprising a securing element (claim 43), specifically wherein the combination of limitations includes a two-layer structure (thermochromic and translucent) as currently claimed with the translucent layer structure that produces different color effects in reflected light upon a change of view angle.

Applicant's arguments were persuasive, and the amendment to the claims overcomes the prior art. The closest prior art is Kaule as is discussed in detail in the previous office actions.

Examiner notes there is no motivation found to modify the invention of Kaule to include the specific combination of limitations found in claims 40 and 43, and furthermore, the changes that would be required would require hindsight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
